Introduction—

01

Through our services, we aim to bring
exquisite interior products and
sophisticated experiences tailored to each
customer's needs

BOHO Factory has achieved ISO 9001:2015 certification and is the first furniture factory in Vietnam to achieve LEED GOLD certification by the US Green Building Council.

This is the assertion of BOHO about choosing sustainable development associated with environmental protection and bringing the brand's credibility to the international market.

Rigorous production processes and a team of skilled workers have set up the base for BOHO's interior products to meet and exceed stringent quality standards.
